

Marlow DATASHEET[®]

D2 GRAND PRIX 78

The upgrade to D2 Racing and ultimate standard production racing halyard or sheet. Manufactured using our bio-based D12 78 core or D12 99 core for additional strength and 50/50 Technora / Polyester cover to provide even greater performance in clutches, jammer and around winch's. Lightweight, low stretch, minimal creep with grippy, abrasion resistant cover for excellent jammer performance. D2 Grand Prix's blended cover grips well on winch drums and lasts during the toughest races thanks to its high melting point.

PERFORMANCE

DIAMETER	WEIGHT	BREAK LOAD 78	BREAK LOAD 99
mm	kg/100m	t	t
12	9.29	6.94	8.26
14	11.7	9.27	11.0
16	16.6	12.8	15.2
18	18.5	15.9	16.4
20	23.7	18.4	21.4
22	29.8	21.1	24.5
24	38.3	25.2	29.2
28	47.8	33.5	38.9
30	54.9	38.8	46.2
32	69.1	41.0	48.8

Key Specifications:

Material:	Dyneema [®] SK78
Construction:	12 Strand pre-stretched Dyneema [®] 24 Plait Technora/ Polyester blend, cover available in custom colours
Coating:	'Amourcoat'
Splice:	Customised length and colours for a bespoke finished. Available with machine finished splices for additional security and aesthetics.
